

Editing the Page Grids

There are additional options available for each individual grid on the page.

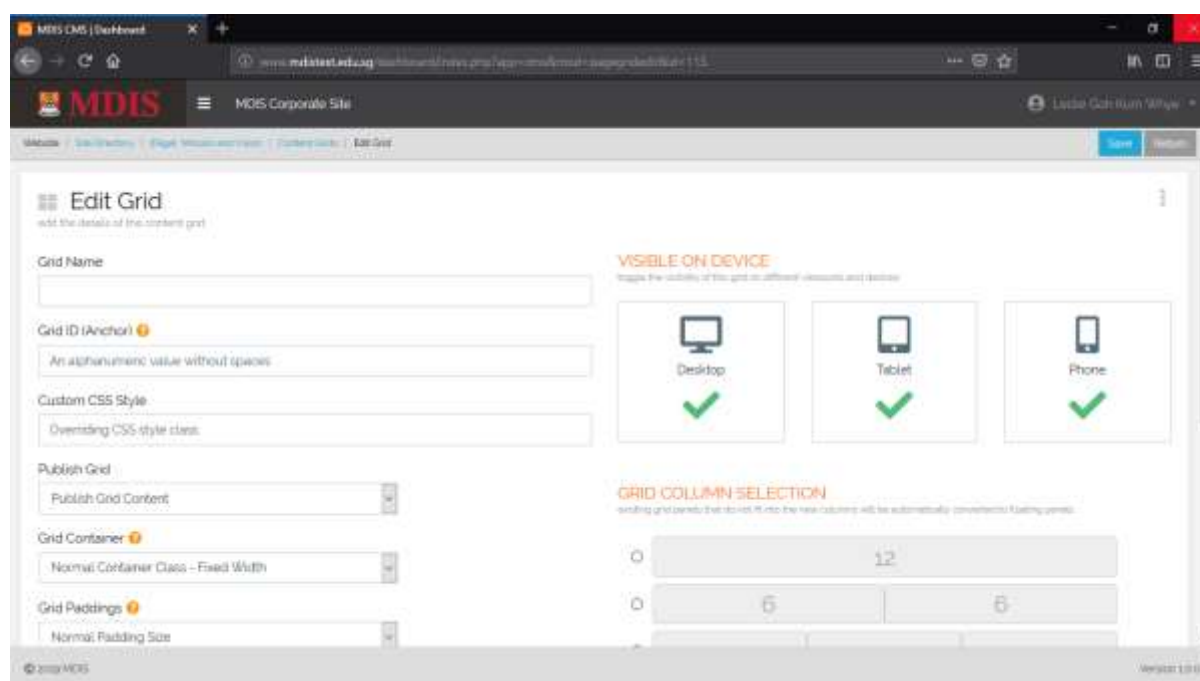

Move	You can change the position of this grid by clicking and holding on to this icon and dragging the entire grid to its new position. This works if there are more than one grid row on the page
Publish	Click this to quickly PUBLISH or UNPUBLISH the grid row. Unpublished grid rows will not appear on the corporate site
Edit	The EDIT button will redirect you to the Grid Details page where you can select more options for this grid
Delete	Deletes the entire grid row and its corresponding panels. This is a permanent deletion

To the right of the Page Grid buttons, there are three icons in white. They show which device view this grid will appear. The device views are:

- Desktop
- Tablet and
- Mobile

Editing the Grid

The Grid Details page allows you to further control the different aspects of the page grid. The options are given below.

Grid Options

Grid Name	The name of this Grid. For information purposes only, you may leave this field blank
Grid ID (Anchor)	You can give an internal ID to this grid and link to this with the HTML <a> tag.
Custom CSS Style	A custom CSS class for this grid only
Publish Grid	Sets whether to publish the content of this grid
Grid Container	Sets whether the grid is set to 100% of the screen width or to a fixed width
Grid Paddings	Sets whether padding (margins) are set around the grid
Access Level	Ignore this setting for now

Visible on Device

Simply select which device this grid will appear by clicking on the appropriate device view

Grid Column Selection

You can change the number of columns and the size of each column in this grid row by selecting the appropriate radio button selection.

Please note that if you are changing the grid row from one with more columns to one that is lesser, the panels (content) of the missing columns on the right will be floated. For more information on Floating Panels, please read the section below.

Click on **SAVE** once you have finished updating the details of this Grid and your latest changes will be saved. Or click on **RETURN** to return to the Content Grids page.
