2. Must my medical examination be done in Singapore in order to apply for a Student's Pass?

Answer: For new applicants who are not in Singapore, the medical examination, if applicable, can either be done in their home country or Singapore by a qualified doctor.

However, the medical examination required for subsequent renewal of the pass must be done in Singapore. The doctor must record and certify the results of the medical examination in the specified medical report form.

At the time of submission, the medical report should not be issued more than 3 months ago. If a medical report had been submitted to the Immigration & Checkpoints Authority or Ministry of Manpower not more than 2 years ago, there is no need to submit a new medical report.
